PRODUCT: ARV5106 - Polyethylene Film Tape

PRODUCT DESCRIPTION: Polyethylene film tape is a single coated clear polyethylene film with 5 mils of an acrylic pressure sensitive adhesive. It is supplied on a 50# tan kraft release liner. For a low cost alternative to molded rubber and plastic hole-plugs, polyethylene film tape, and a very tacky, high-performance acrylic adhesive system, its is ideal for use on smaller holes where strength and flexibility are application requirements. Polyethylene film tape can easily wrap around corners and conform to complex surfaces, enabling it to excel where rigid materials or molded plugs just are not effective.
